

Sol-Luce Energy Project

Community Liaison Committee Meeting #2

KINGSTON
SOLAR LP

About the Project

The Sol-Luce Kingston Solar PV Energy Project (Sol-Luce Energy Project) is a 100-megawatt solar photovoltaic power development located in the City of Kingston and Loyalist Township. The Project is being developed by Kingston Solar GP on behalf of Kingston Solar LP (Kingston Solar), which obtained approval from the Ministry of the Environment (MOE) to build a Class 3 Solar facility in April 2014.

Establishment of a Community Liaison Committee

Good planning includes the involvement of the community as a key partner. Kingston Solar has established a Community Liaison Committee (CLC) to discuss the important aspects of construction, installation, use, operation, maintenance and retirement of the Sol-Luce Energy Project. This committee will serve as a forum for the community to share ideas, express concerns and to receive ongoing updates about the Sol-Luce Energy Project. An independent, third-party facilitator from AECOM has been retained to facilitate the Sol-Luce Energy Project Community Liaison Committee meetings. The Committee consists of eight (8) members from the community, with membership being drawn from a cross-section of the local community.
